## MEET THE CALORIE KILLER

Walking is the #1 fitness activity in the world. TreadClimber® by Star Trac builds on this everyday motion and makes it exponentially more effective. With its unique design, the front foot steps up as much as an 18° incline, but the treadle falls, so at push-off, users are stepping on flat ground – it's essentially like walking on sand. The TreadClimber also allows for a natural stride length, so there's no compromise for short or tall users. It brings a new challenge to walking without any comfort drawbacks – and not to mention, it brings proven results. We're talking a high-burn, low-impact workout that burns 2x the calories as walking the same speed on a flat treadmill.

# THE CALORIE KILLER

The TreadClimber® by Star Trac is taking reliability and performance to a higher level. Our design moves the treadles with proven, safe, conventional technologies, not hydraulics, and it has been rigorously tested to ensure durability. That means TreadClimber gives you quality and peace of mind, all while giving your members a workout that's easy on the knees, ankles and joints – but tough on calories.

## BUILD ON GREATNESS

At **Core Health & Fitness**, when we brought together fitness brands to build our company, we settled for nothing but the best. Four iconic brands that pioneered entire categories and whose machines are still the ones **members ask for by name**. Today, we're committed to continuing the tradition that started decades ago – and that's greatness you can feel good about building your business on.
